

HEATHER DELACRUZ

SENIOR LEARNING EXPERIENCE DESIGNER | eLEARNING DEVELOPER | LMS ADMINISTRATOR

Kansas City Metropolitan Area | hdelacruz1@icloud.com | [LinkedIn](#)

PROFESSIONAL PROFILE

Senior Learning Experience Designer, eLearning Developer, and LMS Administrator with 15+ years of experience creating and supporting digital learning for client education and internal workforce development. Combines instructional design, multimedia production, project management, and enterprise learning technology expertise to support product adoption, learner proficiency, and effective learning delivery.

Experienced across the full digital learning lifecycle, from needs analysis and SME collaboration through development, assessment, QA, LMS administration, reporting, and learner support. Brings strengths in project leadership, mentoring, process improvement, technical problem-solving, and translating complex technology into practical learning experiences.

AI & Emerging Learning Technology: Generative AI for L&D • AI-Assisted Content Development • Prompt Design • Microsoft Copilot • ChatGPT • Claude (Familiarity)

PROFESSIONAL EXPERIENCE

NETSMART TECHNOLOGIES

Senior Learning Experience Designer | Overland Park, KS | May 2019-Present

Design, develop, and deliver multi-platform learning experiences for client-facing and associate-facing audiences, supporting product adoption, client enablement, workforce learning, and proficiency with complex healthcare technology.

Learning Experience Design & eLearning Development

- Analyze learning needs and develop learner-centered solutions for product adoption, optimization, client enablement, and internal learning needs.
- Design and develop digital learning in Articulate Rise 360 and Storyline 360, including scenario-based learning, interactive activities, assessments, multimedia, and performance support.
- Partner with SMEs and stakeholders to translate complex product knowledge and workflows into structured learning solutions, including learning objectives, storyboards, instructional content, interactions, assessments, and supporting resources.
- Develop certification-based learning content, multi-course learning paths, assessments, microlearning, instructional videos, tutorials, job aids, and performance-support resources.

LMS Administration & Learning Operations

- Administer enterprise learning environments for client education and associate learning, including Skilljar/Gainsight, Docebo (Elevate), and myLearningPointe.
- Configure, publish, update, and maintain courses, programs, and learning paths; manage learner access, audience assignments, content maintenance, and publishing troubleshooting.
- Produce monthly and quarterly learning and operational reporting, validating data on course consumption, success, progression, and client footprints for leadership decision-making.
- Support certification and continuing-education operations, including completion records, CE Broker uploads, CEU approvals and renewals, and supporting documentation.
- Manage subscription and billing workflows within myLearningPointe, including account monitoring, reconciliation, contractor billing, renewals, cancellations, and adjustments.

Project Leadership, Multimedia & Team Collaboration

- Lead learning-development projects from planning through implementation, coordinating timelines, deliverables, SME and stakeholder input, reviews, dependencies, and publication.
- Manage multiple concurrent projects while proactively communicating progress, risks, blockers, dependencies, and changes that may affect delivery.
- Produce and edit instructional video in Adobe Premiere Pro, including screen recordings, narration, audio, captions, graphics, and branded visual elements.
- Support team capability through peer review, mentoring, troubleshooting, knowledge sharing, reusable templates, standards, and process improvements that strengthen quality and development efficiency.

AMERICAN PUBLIC WORKS ASSOCIATION

LMS Administrator & eLearning Specialist | Kansas City, MO | April 2011-May 2019

- Designed and developed online learning, webinars, and digital training using Articulate Storyline and Adobe Captivate.
- Implemented and administered iCohere and Topyx learning management systems, including configuration, launch, permissions, standards, reporting, documentation, and ongoing support.
- Developed LMS training materials, user guides, workflows, process documentation, and reporting resources for administrators and learners.
- Managed continuing-education processing and supported staff, instructors, and learners with LMS administration, learning technology, and digital-delivery needs.

ADDITIONAL EXPERIENCE

Earlier roles in administration, operations, bookkeeping, property management, and information systems with Lewis-Goetz & Company, FLA Properties, C.L. Gerwick & Associates, Lyons and Cubs Painting, Krigel's Jewelers, and Office Depot.
